

Model	UNI5531G
Frequency Range	5470 - 5725 MHz
Bandwidth	255 MHz
Gain	31 dBi
Horizontal Beamwidth	4°
Vertical Beamwidth	6°
F/B Ratio	>30 dB
V.S.W.R.	≤ 1.5
Nominal Impedance	50 Ω
Polarization	Vertical or Horizontal
Maximum Power	100 W
Connector	N Female
Dimensions	0.6 x 0.9 m
Weight	3.5 kg
Rated Wind Velocity	60 m/s

### DuraFeed:

Our antenna feed casing is manufactured from high grade steel, an additional plastic cover is installed over this to further protect the internal feed from the elements, this prolongs the life of the antenna and ensures link quality does not deteriorate over time.

Ensure your antenna has this additional protective layer, competing antennas that do not have this additional layer of protection will have a shorter lifespan and performance may deteriorate over time.
